WEEKLY PROJECT REPORT

Project Title: AI-Based GST Compliance Helper for MSMEs using OCR and Automated Reconciliation

Week: 4

Name: Ankitha N

SRN: R23EF025

1. Objectives for the Week

- To test reconciliation module
- To verify matching and mismatch detection
- To ensure GST data accuracy

2. Activities Performed

- Designed reconciliation test scenarios
- Tested matching of invoices
- Validated mismatches and duplicates
- Logged defects and retested fixes

3. Key Findings / Insights

- Minor variations affect matching
- Duplicate detection is important
- Standardization improves results

4. Contribution to Project Development

- Developed test scenarios
- Identified bugs
- Improved system reliability

5. Learning Outcomes

- Learned reconciliation testing
- Improved debugging skills
- Understood GST matching challenges

6. Plan for Next Week

- Perform system testing
- Validate UI and workflow
- Prepare final report

7. Conclusion

- Focused on validating reconciliation accuracy and system reliability
